

Gearboxes

From Nema-size stepper gearheads to right-angle 200-HP gearboxes, Tek-Matic has the gearbox solution for you. Industrial gearboxes offer a wide variety of gear ratios which multiply your torque and reduce the speed of your standard AC and DC motors. Precision gearheads offer the same benefits for servo and stepper motors while also optimizing inertia ratio for better dynamic moves. Our gearboxes are available as stand alone, or gearmotor configurations.

Products

- Helical
- Bevel
- Worm
- Hypoid
- Planetary
- Servo Worm
- Shaft Mount
- Gearmotors

Options and Configurations

- Gearboxes up to Hundreds of HP
- Hollow-Shaft and Flange Mount
- C Face and Coupling Motor Mount
- Washdown Versions
- Custom Designs
- Right Angle
- Inline
- Servo Gearheads over 10,000 Nm
- Backlash Ratings less than 1 arc-min
- Mounting Adapters for all Servo Motors
- Brake and Encoder Accessories
- Synthetic Lubrication
