MEGP-25E

\$1,550.00

6 mm stroke, 40 N adjustable force electric gripper

Developed in collaboration with SCHUNK, Mecademic's MEGP 25E electric parallel gripper is fully integrated with the Meca500 robot.

In addition to using integrated open and close commands, you can adjust the force and velocity of the grip.

The electric gripper is supplied with an adapter plate.
